BIOGRAPHY

Rohm is a French electronic music artist.

His music blends **energy, nostalgia, and hope**, turning memories into light and movement.

Each track is born from a sincere emotion, a moment in life, or a memory he seeks to bring back to life through sound.

Rohm composes as one tells a story — with rhythm, sensitivity, and instinct.

His creations move between **power and softness, tension and release**, always guided by the need to express something true.

They invite both **dance and reflection**, carried by an energy that brings people together.

On stage, Rohm shares that same intention: **to create a moment of presence, emotion, and connection.**

Alongside his album and releases, Rohm created **Spin & Create**, a musical series where he spins a globe, lands on a random country, and produces a track inspired by its culture, sounds, and spirit.

Each episode is an invitation to travel and curiosity.

For his debut album **Éclat de Fête**, released in 2025, Rohm also brought his world to life through several videos filmed in **unique and symbolic locations** such as the **Golf des Baux-de-Provence, La Chapelle de l'Annonciade, Pointe Saint-Christ**, and the **Ziem Museum** in his hometown.

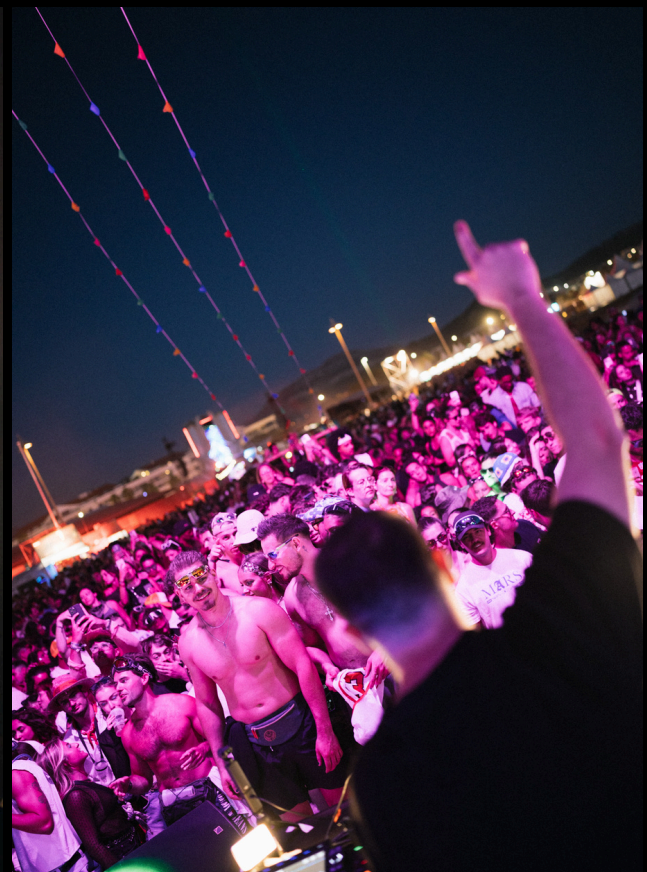

These spaces — between nature, heritage, and emotion — extend the dialogue between **music, image, and memory**, at the heart of the world he continues to build: **sincere, luminous, and deeply human.**

Founder of the collective **PRYZM** (formerly Techno Dayz), Rohm has organized more than **80 events across France since 2018**, gathering up to **2,000 attendees.**

In **2024**, he also launched **Ritmin Records**, a label dedicated to his own productions and to artists close to his creative universe.

His tracks have been supported by major names in the international electronic scene, including **David Guetta, Meduza, Kölsch, and Marco Faraone.**

PICS

DISCOGRAPHY

LIVE / DJ SET

Rohm Live at Dock des Suds (Marseille)

→[\[YouTube Link\]](#)

"This live video recorded at Dock des Suds in Marseille is a key highlight of my artistic journey."

"Every live set, every moment on stage, is part of a continuous journey. Playing in front of over 1500 people at Dock des Suds alongside Goom Gum was a special moment, but it's just one of many steps. It's about reading the crowd, keeping the energy flowing, and staying grounded in my roots in Melodic House & Techno, and Tech House."

It's not just about performing, it's about creating a real, shared experience with the audience — something I strive for every time."
