BIOGRAPHY

A DJ is seen from behind, wearing headphones and operating a DJ deck. The background features large, illuminated letters, possibly spelling 'ROHM', in a vibrant red and purple color scheme. The scene is dimly lit, focusing on the DJ and the glowing letters.

ROHM is a French electronic music artist creating melodic and groove-driven house music built around emotion, energy, and human connection.

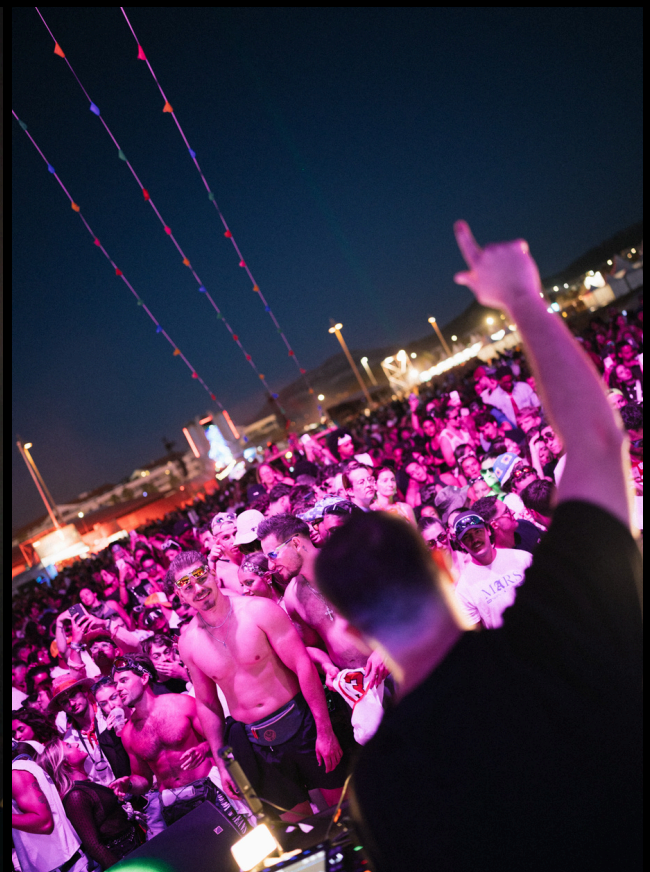

Through warm textures, memorable melodies, and club-focused productions, he crafts records that resonate both on the dancefloor and beyond.

Having organized more than 100 electronic music events across France since 2018, ROHM combines the perspective of both an artist and a curator of electronic music culture.

In 2024, he launched Ritmin Records, a label dedicated to forward-thinking electronic music and meaningful artistic collaborations.

His music has received support from leading artists including David Guetta, Adriatique, Kölsch, Meduza, Matt Sassari, Joris Voorn, Marco Faraone and more...
